

*Escape
the Everyday*

Make Your Escape

Whether you enjoy island-hopping for a few days, carving turns in big chop, slow cruising along a secluded cove, getting your adrenaline fix at the end of a tow rope or just kicking back catching some rays, you'll find your escape with the new 2018 Sea-Doo® lineup.

We started a revolution in watercraft with the introduction of Sea-Doo in 1968. Since then, we created the first three-seater, the first on-water brake, the world's most affordable watercraft with the Sea-Doo SPARK® and many other innovative products. Now, on our 50th anniversary, we're starting another revolution: Introducing the next-generation 2018 Sea-Doo models, re-defining the watercraft experience with our most innovative, stable and versatile platform ever, for the most epic adventures ever.

THE
NEXT-GENERATION
Sea-Doo

The all-new Sea-Doo models are built on a new platform that is built for adventure. With more usable space, superior stability in any condition, ingenious storage and an Audio System to amplify your next adventure, life onboard has completely changed. Whether you're out exploring, discovering new locations or just hanging out, these revolutionary new models turn the idea of a personal watercraft, into a personal adventure-craft. Available on the Sea-Doo RXT, GTX and WAKE PRO.

LIVING ROOM ONBOARD
CONFIGURABLE. COMFORTABLE. GROUNDBREAKING.

With comfy, modular 3-Up seating, and a useful and large swim platform, the new design makes hanging out just as fun as riding around.

Large, flat swim platform to prep for fun or kick back for hours.

Modular seating is configurable for hanging out, sunbathing or a face-to-face picnic.

Removable rear seat, to create even more space while relaxing.

REVOLUTIONARY STABILITY

AT REST. AT SPEED. ALWAYS STEADY.

It's our most stable platform yet. And in rough water, it's the new industry standard for stability. Whether you're parked in a cove or hauling at high speeds, the new Sea-Doo models feel steady and sure—even with three people on board or someone re-boarding.

Redesigned hull for improved stability at high and low speeds, in big or small chop.

Lower center of gravity for improved stability.

Hull is 1" (2.5 cm) wider for improved stability at rest or re-boarding.

INGENIOUS STORAGE

USEFUL. ACCESSIBLE. FUNCTIONAL.

All your gear is now within arm's reach. The industry's first direct-access front storage opens by simply raising the handlebar assembly. No standing required. And extra rear storage is now possible with the secure Quick-Attach LinQ System.

Exclusive LinQ System lets you quickly and easily attach a fuel caddy and a bag or cooler.

Large front storage is completely accessible from a seated position.

Glovebox features a waterproof, shockproof phone compartment with USB charger.*

MUSIC ONBOARD

INTEGRATED. BLUETOOTH. WATERPROOF.

Ride to the beat of your own drum with the new BRP Audio Premium System. With the swipe of a finger, create the vibe you want with the industry's first manufacturer-installed, truly waterproof, Bluetooth[®] audio system. You can store your phone in the waterproof, shockproof compartment and even charge it with the USB port.*

Two powerful 50-watt speakers for music clarity, even while riding.

Music will play even after engine is turned off.**

Remote control pad on left speaker to quickly and easily change songs and volume.

Other improvements: LinQ Ski Pylon Quick-Attach System, New 3rd Generation iBR, Easy Reboarding Handle. *USB Port available as an accessory. Standard on GTX Limited model. **Up to one hour.

||| PERFORMANCE

ADVENTURE
BEYOND TYPICAL
Boundaries

Get ready to push the limits of what you can do and where you can go on a watercraft. The all-new ST³ Hull™, combined with the innovative Ergolock™ System on RXT models, maximizes control in any condition, making it the new benchmark for rough water performance. And for the thrill of outright acceleration, 60 mph (96 km/h) is just 3.8 seconds away. With available features like the Bluetooth Audio System and the exclusive LinQ Quick-Attach System for cargo, the new go-anywhere, do-anything performance models can turn a typical joy ride into an epic journey.

8 YEARS WORKING TOGETHER

BRP

SURF LIFE SAVING

OFFICIAL POWERCRAFT SUPPLIER OF
SURF LIFE SAVING AUSTRALIA

MORE THAN 8 YEARS
SUPPORTING LIFE SAVING
ON THE BEACH.

BRP's exclusive technologies are at the heart of why Sea-Doo products deliver the most satisfying and secure experience on the water. The world's first and only intelligent Brake and Reverse (iBR) system together with the learning kit that helps control the speed on beginners, offer outstanding manoeuvrability and safety handling. Now add ECO™ mode for fuel efficiency, adjustable suspension for superior comfort, impressive power and cutting-edge features, and you've got a ride that puts exhilaration into your day and your mind at ease.

These continuous innovations and reputation on the water have made Sea-Doo the chosen brand for Surf Life Saving everyday operations.

Under demanding conditions, day in and day out, Sea-Doo watercraft deliver the performance and reliability required to help save lives on Australian beaches. And with ultra low emissions throughout the line-up, our watercrafts are also helping keep Australian beaches and waterways clean.

APPROVED SURF LIFE SAVING RESCUE WATERCRAFT.

Coastal Safety & Risk Manager for Surf Life Saving Australia, Anthony Bradstreet said "We are particularly pleased with the performance of the range of BRP products including Sea-Doo personal watercrafts, Evinrude E-TEC outboard engines, Can-Am ATVs and SSVs. Across the categories, BRP have shown their commitment to providing quality products that are safe to use and environmentally sustainable."

REC-LITE

YOUR DREAM
OF FAMILY FUN ON
the Water
IS NOW A REALITY

Discover the most affordable, compact, fuel-efficient and lightweight watercraft in the industry. Fun to ride and easy to tow with a small car, the SPARK is designed to make the most out of your summer on the water.

The one-of-a-kind SPARK TRIXX, now available in a 3-passenger version, makes pulling off tricks so easy and so much fun, you'll never want the day to end. Its Adjustable Handlebar Riser, Extended-Range Variable Trim System (VTS) and Step Wedges allow you to soar through exciting new moves. It's a whole new way to play.

*Practicing tow sports requires the presence of a third person for spotting. Top Speed reached during BRP internal testing in specific weather conditions

| ERGOLOCK UNMATCHED CONTROL, HANDLING AND COMFORT

The narrow, race-inspired seat and deep knee pockets let you lock in and use your legs for better control, reducing upper body fatigue and making you feel like one with the machine.

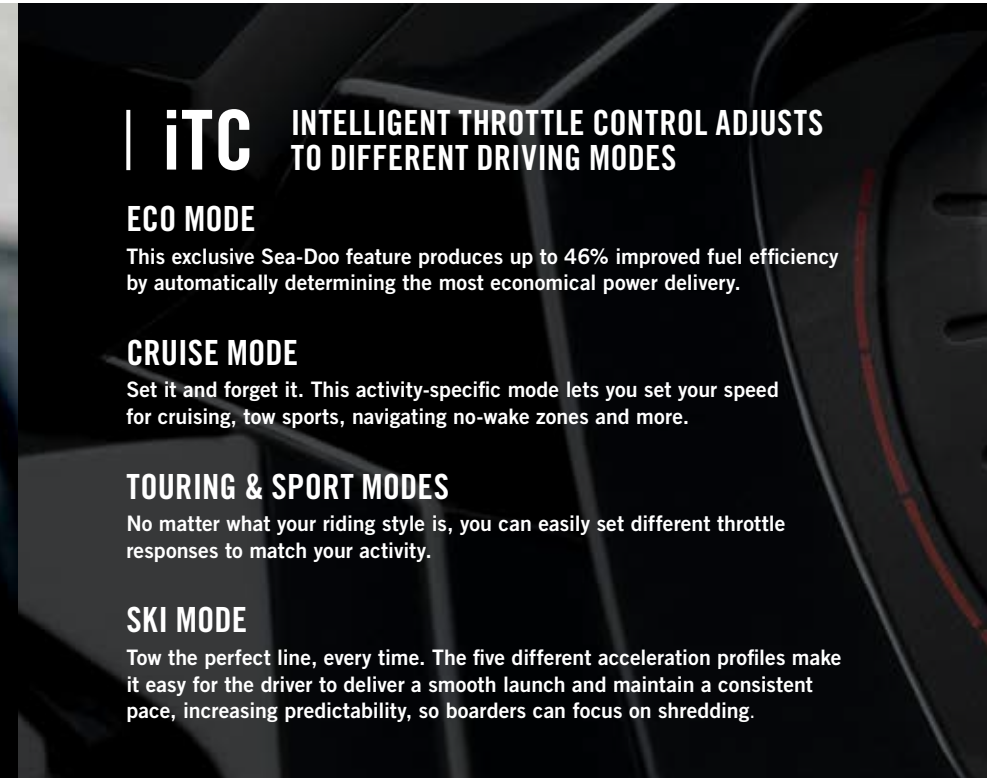

| iBR THE INDUSTRY'S FIRST AND MOST INTUITIVE ON-WATER BRAKE

Recognized by the U.S. Coast Guard for improving boat safety since 2009 and now in its third generation, the Sea-Doo exclusive iBR (Intelligent Brake and Reverse) system allows you to stop up to 160 feet (48 m) sooner than watercraft not using a brake. With both hands on the handlebars, riders can engage forward, neutral, and reverse for stable, worry-free maneuvering at low speeds. *Based on BRP internal testing.

| VTS TRIMMED TO PERFECTION

The Variable Trim System (VTS) allows you to easily find the ideal trim for any situation. The addition of the new advanced Launch Control System will automatically adjust the VTS based on your current speed, to get onto plane immediately.

| iTC INTELLIGENT THROTTLE CONTROL ADJUSTS TO DIFFERENT DRIVING MODES

ECO MODE

This exclusive Sea-Doo feature produces up to 46% improved fuel efficiency by automatically determining the most economical power delivery.

CRUISE MODE

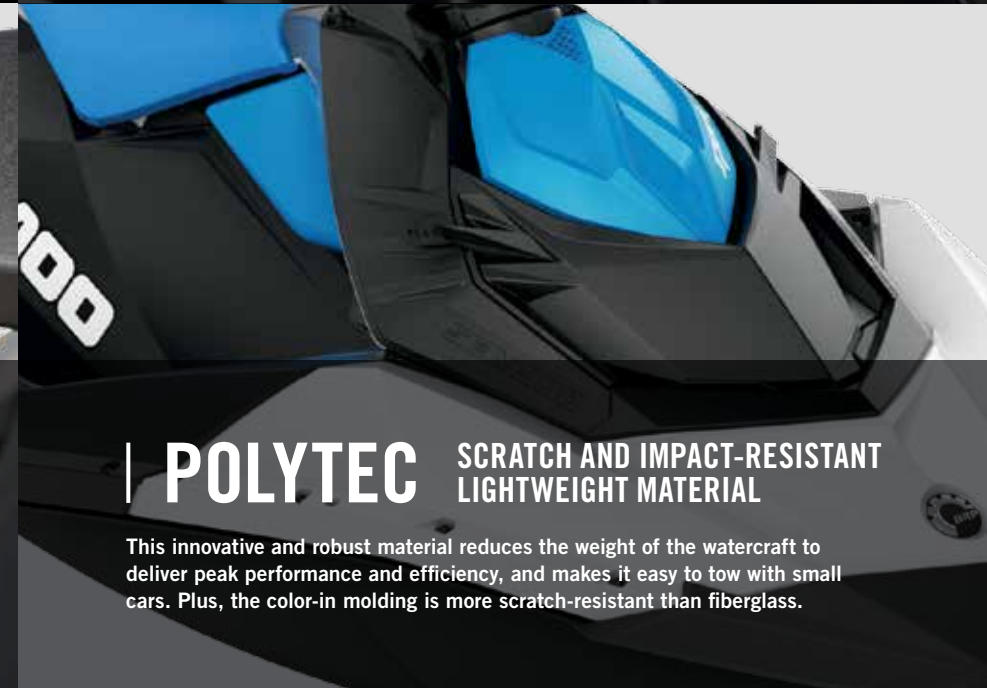

Set it and forget it. This activity-specific mode lets you set your speed for cruising, tow sports, navigating no-wake zones and more.

TOURING & SPORT MODES

No matter what your riding style is, you can easily set different throttle responses to match your activity.

SKI MODE

Tow the perfect line, every time. The five different acceleration profiles make it easy for the driver to deliver a smooth launch and maintain a consistent pace, increasing predictability, so boarders can focus on shredding.

| POLYTEC SCRATCH AND IMPACT-RESISTANT LIGHTWEIGHT MATERIAL

This innovative and robust material reduces the weight of the watercraft to deliver peak performance and efficiency, and makes it easy to tow with small cars. Plus, the color-in molding is more scratch-resistant than fiberglass.

| CLOSED-LOOP COOLING SYSTEM EFFICIENT, COMPACT RELIABILITY

A Sea-Doo exclusive, the Closed-Loop Cooling System (CLCS) uses coolant to keep the engine running at ideal temperatures. Unlike competitors, this technology prevents corrosive saltwater and damaging debris from entering the engine, for increased reliability, longevity and peace of mind. Offered as an expensive upgrade on traditional inboard engines, CLCS comes standard on all Sea-Doo models.

ENGINES

WITH UNMATCHED HIGH-PERFORMANCE, SUPERIOR FUEL-EFFICIENCY AND PROVEN RELIABILITY, ROTAX® ENGINES CONTINUE TO SET THE STANDARD IN THE INDUSTRY. EVERY MODEL FEATURES THE INDUSTRY-EXCLUSIVE CLOSED-LOOP COOLING SYSTEM TO KEEP CORROSIVE SALT WATER AND DEBRIS OUT OF YOUR ENGINE FOR ADDED PEACE OF MIND. TO TOP IT OFF, ALL ACE™ SUPERCHARGED ENGINES ARE MAINTENANCE FREE.‡

ROTAX 1630 ACE

TOP SPEED:
105 KM/H*

This pulse-pounding 300-hp engine boasts the industry's best power-to-weight ratio. Supercharged with an external intercooler, the Advanced Combustion Efficiency (ACE) technology delivers high efficiency and amazing acceleration. Case in point, the adrenaline pumping RXP-X goes from 0-60 mph (96 km/h) in just 3.8 seconds.*

*Based on BRP internal testing of 2016 RXP-X 300 in optimal conditions. Top speed is limited to 65 mph (105 km/h) in North America as per an agreement with the US Coast Guard.

ROTAX 1500 HO ACE

TOP SPEED:
105 KM/H*

Equipped with Advanced Combustion Efficiency (ACE) technology and optimized for regular fuel, the 230-hp, supercharged 1500 HO ACE uses components from our top-of-the-line ROTAX 1630 ACE to provide high performance at a high value with acceleration from 0-60 mph (96 km/h) in just 5.2 seconds* and superior fuel efficiency.

*Based on BRP internal testing of 2017 GTR-X 230 in optimal conditions. Top speed is limited to 65 mph (105 km/h) in North America as per an agreement with the US Coast Guard.

ROTAX 1503 NA

TOP SPEED:
88 KM/H*

The most powerful, naturally aspirated Rotax engine on a Sea-Doo offers instant acceleration for instant fun. This engine has been tested for more than a decade and has proven to be incredibly reliable and fuel-efficient.

*Based on BRP internal testing of 2017 WAKE 155.

ROTAX 1503

TOP SPEED:
84 KM/H*

This engine continues to be a benchmark for reliability, performance and fuel economy, returning proven power, low overall weight, and ease of maintenance.

*Based on BRP internal testing of 2017 GTI SE 130.

ROTAX 900 HO ACE

TOP SPEED:
77 KM/H*

The most compact and lightweight engine on the market today. The Rotax 900 HO ACE incorporates snappy acceleration, impressive fuel economy and an excellent power-to-weight ratio with a top speed of close to 80 km/h.

*Based on BRP internal testing of 2016 SPARK 900 HO ACE 1+1.

ROTAX 900 ACE

TOP SPEED:
66 KM/H*

The most fuel-efficient, compact and lightweight engine on the market today. The Rotax 900 ACE features a great power-to-weight ratio with a top speed of 41 mph (66 km/h).

*Based on BRP internal testing of 2016 SPARK 900 HO ACE 1+1.

**Performance number in metric horsepower achieved under optimal testing conditions.

***Based on engine power disclosed to EPA in kW (RXT-X 300) and information on manufacturer's website as of publication date.

‡ Inspect supercharger every 200 hours when the vehicle is used in intense conditions such as off-shore riding, continuous operation at wide open throttle, etc.

XPS oils are developed for the best performance and longevity. They're the only oils developed and tested with BRP power train engineers to match the unique needs of our Rotax engines.

HULLS

A VARIETY OF INNOVATIVE HULL DESIGNS FOR A VARIETY OF RIDING STYLES.

NEW ST³ HULL STABLE + PREDICTABLE

Whether you're at high speeds pounding rough offshore waters, at rest hanging out in a cove or you're simply boarding from the side, the wider hull offers industry-leading stability thanks to a lower center of gravity and improved hull design.

T³ HULL PERFORMANCE + PRECISION

Ready, set, race. A deep V-shaped hull—the favorite of our Sea-Doo X-Team racers—allows unmatched control and precision for the sharpest turns and unrivaled handling. (RXP-X 300 only)

GTI HULL FORGIVING + NIMBLE

This classic, responsive, moderate V-shaped hull is now crafted in both Fiberglass or Polytec for lighter weight, and increased strength to return an enjoyable ride in variable water conditions.

SPARK HULL LIGHT + EASY TO HANDLE

Light on weight, heavy on fun. The flatter V-shaped hull makes riding fun and easy in flatter water and small chop. And makes whipping through rougher conditions even more thrilling.

DISCOVER THE SEA-DOO DIFFERENCE.

#1 SELLING WATERCRAFT*

We've accomplished a lot in the last 50 years. And we're just getting started.

INDUSTRY-FIRST INNOVATION

Exclusive on-water braking, Closed-Loop Cooling, LinQ Quick-Attach System and other technologies are designed to push boundaries and make the experience safe, easy and enjoyable.

MOST AFFORDABLE

With the lowest entry level price in the industry—20% less than the competition**—fun on the water is more accessible than ever.

UNMATCHED FUEL-EFFICIENCY

Some Sea-Doo models boast close to 30% better fuel efficiency than the closest competitor.***

INGENIOUS STORAGE

Innovative storage solutions across all of our models, like the new LinQ System for quickly attaching gear and the new Front Storage accessible from a seated position—an industry first.

0-60 MPH (96 KM/H) IN 3.8 SEC****

Leading the industry in the most exhilarating and heart-pounding ride.

SURF LIFE SAVING RECOGNISED

Sea-Doo is the chosen watercraft partner for Surf Life Saving Australia. Reliability and safety are the Sea-Doo difference.

6-TIME CONSECUTIVE WORLD CHAMPION

Race inspired ergonomics and hull design have led the RXP-X to 6 world titles. Our performance machines have the edge and all of our models share winning DNA.

*Based on industry data and BRP estimates.**Source: Manufacturers' website. Price may vary according to product specification.***Based on BRP internal testing and information on manufacturers' website.
****Based on BRP internal testing of 2016 RXP-X 300.

Gear up for Adventure

Live the Sea-Doo lifestyle on and off the water. The innovative Sea-Doo riding gear and accessories are the perfect way to make great days even better. In 2018, discover four new Sea-Doo LinQ accessories that allow you to go beyond the typical boundaries.

GET ALL THE DETAILS AT YOUR LOCAL DEALER OR ONLINE AT WWW.SEA-DOO.COM.

LinQ
SYSTEM™

FAST. EASY. SECURE.

Introducing a game-changer. The Quick-Attach Rear Cargo LinQ System on our new Sea-Doo platform. Now, securely attach cargo or ski pylon in seconds and without tools, redefining what is possible with a watercraft. Because when you can pack more, play more, ride farther and keep food and drink cold and fresh, you no longer just go on rides. You go on adventures.

NEW LinQ BAG

The semi-rigid expandable bag stores 21L, can stack on top of the fuel caddy and holds an entire adventure inside.

NEW LinQ FUEL CADDY

The easy-to-pour caddy can hold 15L of fuel to explore more, and the LinQ Bag can stack on top to carry more.

STORAGE BIN ORGANIZERS

Perfect for safely storing and organizing smaller and bigger items.

NEW LinQ Cooler

Rigid, durable and weather-resistant, the cooler keeps 16L fresh and cold, and acts as a table between reconfigured seats for on-water picnics.

NEW LinQ SKI PYLON

With built-in grab handles for the spotter, the high-rise pylon keeps the rope out of the water and keeps the watersports going.

DOCKING ESSENTIALS

Whether you are cruising into a marina or have an unscheduled stop to make, our easy-to-use docking accessories, such as Snap-in Fenders, Speed Ties and Anchors, ensure your watercraft remains protected during docking and while it's moored.

RIDING GEAR

Look good and feel safe. Neoprene wetsuits and shorts for on-water protection, or water-resistant Element Riding Suits for cool-weather comfort, on and off the water.

SEA-DOO LIFE JACKETS

No matter your riding style, Sea-Doo has you covered. Choose from three categories of life jackets to suit your needs. From light and versatily Nylon to comfy Neoprene to the best of both world Ecoprene.

BRP reserves the right at any time to discontinue or change specifications, prices, designs, features, models or equipment without incurring obligation. Wakecraft performance may vary depending on, among other things, general conditions, ambient temperature, and altitude, riding ability and rider/passenger weight. Testing of competitive models done under ideal and/or controlled conditions. Performance number achieved under optimal testing conditions. Some models shown may depict optional accessories. Some pictures depicted in this brochure include professional riders and wakeboarders executing maneuvers under ideal and/or controlled conditions. Do not attempt any of these, or any other risky maneuvers, if they're beyond your level of riding or wakeboarding ability, as well as your understanding and respect for the performance of your personal wakecraft. Always consult an authorized Sea-Doo dealer when selecting a wakecraft for your particular needs, and carefully read and pay attention to your Operator's Guide, Instructional Video, and the on-product labeling on your personal wakecraft. Always drive responsibly and safely. Severe injury can result from ignoring warnings, not following the instructions or improper use of wakecraft and related products. Use common sense and courtesy. Always observe applicable local laws and regulations. Respect the rights of, and keep a safe distance from, other recreationists and/or bystanders. Always wear the appropriate protective clothing, including a Coast Guard-approved life vest as dictated by the circumstances including, but not limited to, the weather, boating conditions and age and abilities of the occupants. Don't operate your wakecraft under the influence of drugs or alcohol. Always observe applicable laws and regulations. Protect your wakecraft with the B.E.S.T. Protection Plan out there. Visit an authorized Sea-Doo dealer for details. By being a member of these important industry associations, we recognize and support their efforts in sharing the responsibility of promoting the growth of our sport. Sea-Doo wakecraft riders know that riding responsibly and safely is always more fun.
